

Deaf ASL users:  
we need you!

**Tell us about your experiences  
with communication access to  
healthcare**

The Disabilities Rights Center needs adult Deaf ASL users to participate in interviews about your access to healthcare. The DRC is helping in research to find out about the experiences of people who use ASL when they go to hospitals and doctors offices.

You will be interviewed by Lori McLaren, a member of the Deaf community. Your answers will be kept confidential. The study will help show the experiences of communication access for Deaf people.

To schedule an interview or find out more, call Julia Freeman-Woolpert: email [juliaf@drcnh.org](mailto:juliaf@drcnh.org), or V/TTY 1-800-834-1721.
